

Falkena Legal - legal opinions in the Netherlands

Cross-border transactions, involving a company established in the Netherlands, frequently require a legal opinion certifying the efficacy of a transaction under applicable (Netherlands) law.

Knowledge & Experience

Falkena Legal has extensive knowledge of the cross-border transactions market, including corporate and finance transactions. The lawyers of Falkena Legal have all worked at the major Dutch and international law firms. The lawyers of Falkena Legal have impressive track-records in providing legal opinions and understand the need for, and content of, legal opinions.

Fees & Billing

Falkena Legal is very transparent, also in relation to fees and billing. We use flat and standard rates in relation to opinions. No surprises for clients afterwards and therefore we will not charge 'office disbursements' like other law firms do (as additional percentage above the agreed fees). Please see the next page with our flat standard rates for opinions.

Helpful & Careful

When drafting legal opinions, Falkena Legal has a pro-active approach. We understand the urge to close transactions and do not focus on the legal opinion only. We are available to discuss and propose solutions. Falkena Legal is happy to assist with the Netherlands part of a cross-border transaction, however, we are also prepared to be more involved if required.

Flexible & Available

If needed, and all required documents are available, we can deliver in one day. However, please take into account the time difference and the working hours of required officials, and of course weekends and holidays. Falkena Legal does not have 'office hours' and can be contacted at almost any time by phone, fax and VoIP (Skype). E-mail will almost constantly be monitored and Falkena Legal can be reached through its website.
